Additional Employees hired by TLA Engineering & Planning, Inc.

Roseville, CA – March 28, 2006 – TLA Engineering & Planning, Inc. (TLA), a California Corporation providing Land Planning and Civil Engineering services, today announced it has hired three additional employees.

As TLA's Project Manager, Patrick Longtin, P.E. will be responsible for developing and monitoring client proposals, scopes of service and project budgets. He will also prepare improvement plans for a variety of commercial and residential subdivisions and public works projects. Patrick will be providing his expertise to several of TLA's existing projects in his new role as Project Manager. Prior to joining TLA, Mr. Longtin was the Client Fulfillment Director at R&B Engineering, Inc. In his role, Patrick managed the production of land planning and engineering activities, along with the supervision of schedules and budgets for each project. This was instrumental for project efficiencies in regards to the budget and deadlines associated with each phase of the project. As Senior Engineer, Patrick was responsible for originating preliminary plans and construction documents for residential subdivisions and commercial projects in Placer and Sacramento counties.

As an Engineering Technician, George Fritzinger will be involved with the preparation of improvement plans for residential and commercial projects. He will also provide drafting support during the entitlement process for TLA's private sector development team. Mr. Fritzinger was responsible at R&B Engineering for preparing and revising construction improvement plans. His specialty was for grading plans, utility plans, erosion and sediment control plans, drainage exhibits, and plan and profile sheets. He would assist with the updating of the company drafting standards.

As TLA's newest Administrative Assistant, Kelly Atchison will be responsible for handling the accounting and bookkeeping functions. She will also assist with various personnel department functions in support to TLA's on-going growth plan. Mrs. Atchison's has had the breadth and depth experience as a Finance Technician in both accounting/bookkeeping and office management for professional consulting services companies and the chiropractic industry. She has been strategic in developing company processes and systems for office and client efficiency.

TLA, based in Roseville, California, is a design and engineering firm dedicated to providing a full-range of services to private and public Clients. Established in 1985, the firm specializes in planning, designing, engineering and managing projects that range from small residential developments to large mixed use projects. Experience earned over many years and across all varieties of development projects provides the necessary foundation for a wide range of capabilities. Each project is undertaken with an eye towards providing solutions that allow projects to proceed smoothly. Our extensive work with government agencies provides Clients with a knowledgeable ally in moving a project through to completion. TLA's particular expertise in hydrology and hydraulic engineering has been valuable in our work throughout the Northern California region.
