TLA Engineering & Planning, Inc. is the new name for Terrance E. Lowell & Associates, Inc.

Roseville, CA – August 29, 2007 – Terry Lowell announced today that TLA Engineering & Planning, Inc. is the new name for Terrance E. Lowell & Associates. Founded in 1985 by Terry, TLA Engineering & Planning reflects the emerging leadership within the company. With 29 employees and over 22 years experience, Clients no longer rely solely on Terry to plan, design and entitle their project.

“It is advantageous for us to build our future around the name TLA Engineering & Planning”, Lowell said. “Our new name lets us emphasize the leadership of the civil engineers and land planners that have made TLA the success it is today and the success it will be in the future. On a daily basis, these leaders are managing the project budgets and schedules, along with the scopes of work”.

TLA has successfully provided land planning and civil engineering for 22 years. The official name change reflects the company’s solid reputation of project performance and integrity. Notable projects the firm has worked on include Twelve Bridges, Whitney Ranch and Sunset West.

Clients continue to use TLA Engineering & Planning for both public projects and private land development. TLA works with developers, architects and public agencies that desire to design and build projects that contribute to the development of local communities. TLA has a rich history of success in Placer County and the greater Northern California region. TLA firmly establishes its relationship with Clients by navigating through the regulatory requirements to reach their project goals and visions. Whether it is master planned communities, mixed use development, retail space or a commercial center, TLA’s skills and resources are working for our Clients.

TLA Engineering & Planning has also unveiled its new domain name of www.tla-inc.com. Closely tied to our new name, the new domain reflects the new identity of TLA Engineering & Planning, Inc.

TLA Engineering & Planning, Inc., based in Roseville, California, is a design and engineering firm dedicated to providing a full-range of services to private and public Clients. Established in 1985, the firm specializes in planning, designing, engineering and managing projects that range from small residential developments and mixed use projects to large master planned communities. Experience earned over many years and across all varieties of development projects provides the necessary foundation for a wide range of capabilities. Each project is undertaken with an eye towards providing solutions that allow projects to proceed smoothly. Our extensive work with government agencies provides Clients with a knowledgeable ally in moving a project through to completion. TLA's particular expertise in hydrology and hydraulic engineering has been valuable in our work throughout the Northern California region.
