Valerie Hoff is Appointed to the City of Roseville's Community Design Visioning Committee

Roseville, CA – September 4, 2007 – The City of Roseville's City Council announced appointees for the formation of an advisory committee. The appointees will review the City's existing design policies and guidelines, specifically in regards to neighborhood shopping centers, compact residential areas and multi-family housing. The Community Design Visioning Committee (CDVC) will also review the existing Community Design Guidelines and provide input for the future design and growth of the City.

Valerie Hoff, Marketing Manager for TLA Engineering & Planning, Inc., is among the nine appointees chosen for this committee. "It is an honor to be chosen for this position and to be working along side other architects, developers and City employees who have a desire to see the SACOG Blueprint design standards implemented in Roseville", said Valerie. "As someone who lives and works in Roseville, I am excited to work with the CDVC and progress towards our goal of providing input and direction for Roseville's future development".

The CDVC will have its first meeting on Wednesday September 19th and will continue through to December 2007.

TLA Engineering & Planning, Inc., based in Roseville, California, is a design and engineering firm dedicated to providing a full-range of services to private and public Clients. Established in 1985, the firm specializes in planning, designing, engineering and managing projects that range from small residential developments and mixed use projects to large master planned communities. Experience earned over many years and across all varieties of development projects provides the necessary foundation for a wide range of capabilities. Each project is undertaken with an eye towards providing solutions that allow projects to proceed smoothly. Our extensive work with government agencies provides Clients with a knowledgeable ally in moving a project through to completion. TLA's particular expertise in hydrology and hydraulic engineering has been valuable in our work throughout the Northern California region.
